Welcome to Pearl Smile

Pearl Smile a luxury high quality dental experience with a team of internationally trained specialized dentists, dedicated patient coordinators, and advanced equipment and technology. Dent Ally is committed to providing a luxury dental experience given its team of internationally trained specialized dentists, dental assistants, dedicated patient coordinators, the latest dental technology and equipment and customized treatment plans.

Sterilization is a top priority at Pearl Smile and in recognition of the stringent protocols that are followed, Pearl Smile has been awarded the Safest Dental Clinic in India by many renowned international associations.

Providing personalized care and treatment that is focused on the elimination of the root cause of the problem

Our Services

Root Canal

Implants

Clear Aligners

Veneers

Why Choose us?

World Class Infrastructure

We have a spaciouly designed and handicapped friendly clinic that will help you experience a clean, hygienic and sterile environment. Our treatment chambers have been designed to deliver a personalized spa like experience wherein patients can moderate the temperature and music to their needs and preferences.

Excellence in Dentistry

Our approach is a combination of preventive dentistry coupled with patient education that sets us apart in treating patients effectively. Given the high standards in the materials and equipment that we use, we provide warranties for dental treatment wherever possible.

Strict Sterilization Protocols

We have in place a separate sterilization room that shows our commitment to providing a hygienic and sterile environment for our patients. All our instruments are enclosed in sterilized pouches that are opened only at the time of treatment. We use distilled water on our dental chairs as we believe in protecting and improving your general health.

Advanced Equipment and Technology

The success of any dental treatment depends not only on the expertise of the dental practitioner and the cooperation of the patient, but also on the technology being used. We have in place the latest technology that enables us to provide our patients with quality treatments and superior service.
